## Terrorising dissent

HC bail orders are an indictment of attempt to portray Delhi protests as terrorist acts

(Caught between) a statutory bar on grant of regular bail and a judicial embargo on any close examination of available evidence at the bail stage, those arrested under the country's main anti-terror law have been languishing in jails without trial for extended periods. The Delhi High Court orders granting bail to three student activists jailed for over a year for their alleged role in the February 2020 riots in Delhi represent a clear-headed effort to get around such impediments.

(blamed without proof)

claimed / professed.

(noun)  
hindrance / barrier.

calm / steady  
brilliant.

disagreement. } negative tone.

spoiling / suffering

declining

format

freedom  
(security money)

accusation

important

(adj)

honesty / rectitude

understanding

blamed.

roped in = to allure

ill-activities

Sound in legal reasoning and interpretation the judgments of Justice Siddharth Mridul and Justice Anup Jairam Bhambhani have made a salient distinction between those accused of offences against the country's integrity and security on the one hand, and protesters or dissenters roped in unjustifiably under the rubric of 'terrorism' on the other. The Unlawful Activities (Prevention) Act has been invoked by the Delhi Police against activists and others who were among those organising the protests against the Citizenship (Amendment) Act, on the claim that they had also fomented the riots. Under Section 43D(5), there is a legal bar on granting bail if the court is of the opinion that there are reasonable grounds to believe that the accusation against those held is prima facie true.

protestors / objectors

head / caption

caused / drew on

(instigated)

adj (apparent)

blaming

bitter ←

Stop

what off = distant/drive away.

Cover/refuge ←

one who conducts legal activities against any person in respect of criminal charges

Adding to this onerous burden on the accused to demonstrate to the court that the accusation is untrue is a 2019 Supreme Court judgment that bars a detailed analysis of the evidence at the bail stage and rules that bail can be denied on "the broad probabilities" of the case.

Caused

Consider

The High Court has ruled that the bail court can look at the available evidence to satisfy itself about the prima facie truth of the case. In other words, there is no statutory invincibility to the prosecution case merely because the UAPA has been invoked. It has found that none of the three — Asif Iqbal Tanha, Natasha Narwal and Devangana Kalita — was specifically or particularly accused of any 'terrorist act', 'funding of a terrorist act' or an act amounting to a conspiracy to commit a terrorist act or something preparatory to it.

Once the UAPA charges were not seen to be true, it was open to the court to admit them to regular bail until conclusion of the trial. Further, with 740 witnesses cited, there is no scope for early conclusion of the trial. Riots are matters concerning public order, and not the security of the state. The court's observation that the state, in its anxiety to suppress dissent, has blurred the line between the constitutionally guaranteed right to protest and "terrorist activity", is a stern indictment of the establishment. The Delhi Police has gone to the Supreme Court on appeal against the verdict, possibly in the fear that the ruling may foil its design to paint protesters as 'terrorists'. If the High Court's approach to grant of bail is upheld, it would help secure the liberty of other dissenters held under the UAPA elsewhere without sufficient basis.

"quoted"

making it difficult to see / be aware.

## Energy inefficiency can short circuit cooling India

Important locations

As Indian homes will be a key site where future cooling demand will play out, awareness of energy efficiency is crucial take place.

More frequent and intense heat waves are expected with a rise in global temperatures due to climate change. In the last three decades, there have been 660 heat waves across India causing 12,273 deaths. India, with currently low penetration levels of air conditioners (ACs), will likely require substantial cooling services to keep citizens healthy and productive. The India Cooling Action Plan projects the number of room air conditioners to become about four times in the next 10 years,

and about 10 times in the next 20 years, making India the world's largest energy user for cooling.

Scant data

Shortage

ruin

frontline

reduce cooling

Here lies a conundrum. Cooling will likely be at the forefront of India's adaptation to climate change, but if cooling needs are met with inefficient ACs, it could be the bane of India's mitigation efforts.

Indian homes will be an important site where this conundrum between cooling needs and potential emissions will play out. Despite its clear importance, the implications of an increase in residential cooling demand have not been carefully examined. Estimates of AC ownership and usage, the two factors which will determine the extent of future cooling demand, have little empirical backing. We know little about what cooling appliances people seek, and how and why people make their purchase decisions. The pursuit of energy efficiency, too — for instance, who buys efficient technologies and why — remains underexplored.
