

IBPS PO MAINS COMPUTER 01 NOVEMBER 2018

- Q.1. Excel is a?
1.Graphic program 2.Word processor 3.Spread sheet
4.Word document 5.None of these
Ans: 3
- Q.2. Arranging of data in a logical sequence is known as?
1.Sorting 2.Classifying 3.Searching
4.Reproducing 5.None of these
Ans: 1
- Q.3. Which of the transport layer protocols is connectionless?
1.TCP 2.UDP 3.FTP
4.HTTP 5.None of these
Ans: 2
- Q.4. What type of key are ctrl and shift _____ ?
1.Alternate keys 2.Control keys 3.Modifier keys
4.Function keys 5.None of these
Ans: 3
- Q.5. The _____ is the smallest meaningful unit of data ?
1.Cell 2.Field 3.Application
4.All of the above 5.None of the above
Ans: 2
- Q.6. VIRUS stands for _____ ?
1.Very Important Record User Searched
2.Verify Interchanged Result Untill Source
3.Vital Information Resource Under Siege
4.Very Important Resource Under Search
5.None of these
Ans: 3
- Q.7. A parallel port is most often used by a?
1.Printer 2.Monitor 3.Mouse
4.External Storage Device 5.None of the above
Ans: 1
- Q.8. _____ printer strikes paper directly while printing?
1.Impact 2.Non-Impact 3.Scanner
4.Thermal 5.None of these
Ans: 1
- Q.9. URL stands for?
1. UNIFORM REVERSE LOCATION
2. UNIFORM RESOURCE LOCATION
3. UNIFORM REVERSE LOCATOR
4. UNIFORM RESOURCE LOCATOR
5. NONE
Ans: 4
- Q.10. 1 nibble contains how many bits?
1.8 bit 2.1 bit 3.1024 bit
4.16 bit 5.4 bit
Ans: 5
- Q.11. Identifying the source of problem is called as?
1. Trouble shooting 2.Analysing 3.Corruping
4. Decision Making 5.Debugging
Ans: 1
- Q.12. In an ER diagram, an entity set is represented by?
1.Rectangle 2.Ellipse 3.Diamond box
4.Circle 5.None of these
Ans: 1
- Q.13. A DVD is an example of a(n)?
1.Hard disk 2.Optical disk 3.Output device
4.Solid-state storage device
5.Input device
Ans: 2
- Q.14. The resolution of a printer is measured in?
1.Dots per inch 2.Inches 3.Impact
4.Non-impact 5.Dot's per square inch
Ans: 1
- Q.15. Which of the following are the cheapest memory devices in terms of Cost/Bit?
1.Semiconductor memories 2.Magnetic Disks
3.Compact Disks 4.Magnetic Tapes
5.All
Ans: 3
- Q.16. What command is used to permanently remove a record from a database table?
1.Drop 2.Remove 3.Delete
4.Cut 5.None of these
Ans: 1
- Q.17. In the relational modes, cardinality is termed as?
1.Number of tuples 2.Number of attributes 3.Number of tables
4.Number of constraints 5.None of the above
Ans: 1
- Q.18. What type of connection uses an RJ (Registered Jack)45 connector?
1.Ethernet 2.FireWire 3.Thunderbolt
4.USB 5.Internet
Ans: 1
- Q.19. Ctrl + W key is used _____ in MS-Office?
1.To close the current file 2.To close the current application
3.To close the MS-word 4.To close the system
5.None of these
Ans: 1
- Q.20. UTF-8 and UTF-16 are two different types of what?
1.Processor Architectures
2.File Systems
3.Internet Connections
4.Character Encodings
5.None of these
Ans: 4
- Q.21. Virtual Memory is also called?
1.Static RAM 2.Dynamic RAM 3.Extended RAM
4.Video RAM 5.None of these
Ans: 3
- Q.22. _____ device is used for playing games in computer.
1.Touch Screen 2.Light Pen 3.Joystick
4.Card Reader 5.None of these
Ans: 3
- Q.23. What is the full form of PDA ?
1.Personal Digital Assistant
2.Program Direct Access
3.Personal Direct Assistance
4.Programme Direct Assistance
5.None of these
Ans: 1
- Q.24. Which has highest printing quality?
1.Impact printer 2.Non impact printer 3.Plotter
4.Thermal printer 5.None of these
Ans: 3
- Q.25. CRT and LCD are types of _____.
1.Ports 2.Video cards 3.Monitors
4.Memory 5.None of these
Ans: 3
- Q.26. _____ device is used for reading draft & cheque.
1.BCR 2.OMR 3.OCR
4.MICR 5.None of these
Ans: 4
- Q.27. Dedicated computer means?
1.Assigned to one and only one task
2.Does not have operating system
3.Used by single person
4.All of these
5.None of these
Ans: 1
- Q.28. _____ Cards can be used for quick transactions, to identify the user, or to access electronically controlled doors.
1.Smart Cards 2.Biometric Cards 3.Playing Cards
4.UIDI Cards 5.All of these
Ans: 1
- Q.29. USB stands for _____.
1.Union System Bus 2.Universal System Bus
3.Union Serial Bus 4.Universal serial Bus
5.None of these
Ans: 4
- Q.30. _____ is a device which recognize physical or behavioral traits of the individual.
1.Mouse 2.Biometric Machine 3.Touch Screen
4.keyboard 5.None of these
Ans: 2
