

# PUNJAB PATWARI EXAM 25 AUGUST 2018

## Computer or IT : 15 Marks

- Q.1. Which among of the following is Information Technology Act?  
 1. 2001                      2. 2000                      3. 2003  
 4. 2004                      5. 2002
- Ans: 2000
- The Information Technology Act, 2000 is an Act of the Indian Parliament notified on 17 October 2000. It is the primary law in India dealing with cybercrime and electronic commerce.**
- Q.2. Name the Communications and Information Technology Minister of India ?  
 1. Ram Praksh                      2. Ravi Praksh                      3. Mohan Prasad  
 4. Ravi Shankar Prasad                      5. None of these
- Ans: Ravi Shankar Prasad
- Q.3. Which of the following is used to prepare a presentation / Slide show?  
 1. Photoshop                      2. Power Point                      3. Outlook  
 4. Internet explorer                      5. None of these
- Ans: Power Point
- Q.4. The most important or power-ful computer in a typical network is?  
 1. Network station                      2. Network server                      3. Network client  
 4. Desktop                      5. None of these
- Ans: Network server
- Q.6. Expand Wi-Fi ?  
 1. Wireless flow                      2. Wireless fidelity                      3. Wide fidelity  
 4. All of these                      5. None of these
- Ans: Wireless fidelity
- Q.7. Bluetooth is an example of ?  
 1. Local Area Network  
 2. Virtual Private Network  
 3. Personal Area Network  
 4. Wide Area Network  
 5. None of these
- Ans: Personal Area Network
- Q.8. The smallest item of useful information that a computer can handle is called?  
 1. Nibble                      2. Bit                      3. Byte  
 4. Bite                      5. None of these
- Ans: Bit
- Q.9. \_\_\_\_\_ controls the way in which the computer system functions and provides a means by which users can interact with the computer?  
 1. Operating System                      2. Motherboard                      3. Application Software  
 4. Antivirus                      5. All of the above
- Ans: Operating System
- Q.10. What does HTTP stands for?  
 1. Hyper Text Transfer Protocol  
 2. Hand Text Transfer Protocol  
 3. Hard Core Text Protocol  
 4. Hypertext Transfer Port  
 5. All of the above

- Ans: Hyper Text Transfer Protocol
- Q.11. Which output device is used for translating information from a computer into pictorial form on paper?  
 1. Mouse                      2. Plotter                      3. Touch panel  
 4. Card punch                      5. None of these
- Ans: Plotter
- Q.12. The list of coded instructions is called?  
 1. Computer program                      2. Algorithm                      3. Flowchart  
 4. Utility programs                      5. None of these
- Ans: Computer program
- Q.13. A process known as \_\_\_\_\_ is used by large retailers to study trends?  
 1. Data mining                      2. Data selection                      3. POS  
 4. Data conversion                      5. None of these
- Ans: Data mining
- Q.14. The two basic types of record-access methods are?  
 1. Sequential and random  
 2. Direct and immediate  
 3. Sequential and indexed  
 4. On-line and real time  
 5. None of these
- Ans: Sequential and random
- Q.15. What is meant by a dedicated computer?  
 1. Which is used by one person only  
 2. Which is assigned one and only one task  
 3. Which uses one kind of software  
 4. Which is meant for application software  
 5. None of these
- Ans: Which is assigned one and only one task
- Q.16. A Proxy server is used for which of the following?  
 1. To provide security against unauthorized users  
 2. To process client requests for web pages  
 3. To process client requests for database access  
 4. To provide TCP/IP  
 5. None of the above
- Ans: To provide security against unauthorized users
- Q.17. A \_\_\_\_\_ is approximately a million bytes?  
 1. Gigabyte                      2. Kilobyte                      3. Megabyte  
 4. Terabyte                      5. None of these
- Ans: Megabyte
- Q.18. \_\_\_\_\_ are used to identify a user who returns to a Website.  
 1. Cookies                      2. Plug-ins                      3. Scripts  
 4. ASPs                      5. None of these
- Ans: Cookies
- Q.19. What is correcting errors in a program called?  
 1. Interpreting                      2. Translating                      3. Debugging  
 4. Compiling                      5. None of these
- Ans: Debugging
- Q.20. A device that provides emergency power to your computer, conditions the voltage, and protects against power surges is called?  
 1. PSU = Power Supply Unit  
 2. USP = Universal Surge Protector  
 3. UPPS = Universal Power Protection and Supply  
 4. UPS = Uninterruptible Power Supply  
 5. None of the above
- Ans: 1. PSU = Power Supply Unit  
 2. USP = Universal Surge Protector  
 3. UPPS = Universal Power Protection and Supply  
 4. UPS = Uninterruptible Power Supply  
 5. None of the above

- Q.21. What menu is selected to cut, copy and paste?  
1.File 2.Tools 3.Special  
4.Edit 5.Styles
- Ans: Edit
- Q.22. What type of resource is most likely to be a shared common resource in a computer network?  
1.Keyboards 2.Speakers 3.Floppy disk drives  
4.Printers 5.Mouse
- Ans: Printers
- Q.23. Graphics for word processor is known as?  
1.Peripheral 2.Clip art 3.Highlight  
4.Execute 5.Image art
- Ans: Clip art
- Q.24. Periodically adding, changing and deleting file records is called?  
1.Updating 2.Upgrading 3.Restructuring  
4.Renewing 5.None of above
- Ans: Updating
- Q.25. What is the extension of files created in Ms-Word 97- 2003?  
1.Dot 2.Doc 3.Dom  
4.Txt 5.Wrd
- Ans: Doc
- Q.26. BISYNC is an abbreviation for?  
1.Binary Input/Binary Output  
2.Binary synchronous  
3.Binary digit

- 4.All of the above  
5.None of these
- Ans: Binary synchronous
- Q.27. If you see a small red triangle in the top right corner of a cell, it means there is something attached to the cell, What is it?  
1.A comment 2.An attachment 3.An error  
4.All of the above 5.None of these
- Ans: A comment
- Q.28. A passive threat to computer security is?  
1.Malicious Intent 2.Sabotage 3.Accident Errors  
4.Espionage Agents 5.None of these
- Ans: Malicious Intent
- Q.29. An incremental backup?  
1.Uses more tapes  
2.Should be done each month  
3.Saves only files that have recently changed  
4.Save files that has not recently changed  
5.Save two copy of unsaved data
- Ans: Saves only files that have recently changed
- Q.30. These type of viruses are often transmitted by a floppy disk left in the floppy drive?  
1.Trojan horse 2.Boot sector 3.Script  
4.Logic bomb 5.None of these
- Ans: Boot sector
