**As water sources in south India begin to show signs of severe distress and exploitation, the focus should move to environmentalists -----
green cover and shrinking water bodies are issues within our control.**

1. whom have been struggling to point out that dwindling
2. who have been struggling to point out that dwindle
3. who have been struggling too point out that dwindling
4. who have been struggling to point out that dwindling
5. None of the above

At a time when India's relationships with big powers like the U.S., Russia, China and Europe are, the country needs to follow its traditional policy of strategic autonomy.

1. responding to this different behaviour by work with all our options
2. increasingly being complicated by their rivalries with one another
3. not available from other sources
4. capital goods or component and parts rather than finished goods
5. expanding, the U.S. won't want to undercut its relationship.

While India is not a signatory to the 1951 Refugee Convention and has no domestic asylum law, , including the UN General Assembly.

1. the system should be make transparent to enable trust
2. there is a need to reassess India approach to refugee protection
3. it has reiterated its commitment towards the protection of refugees at various international fora
4. it is five years since Nargis first arrived in Delhi
5. None of the above

**The Chinese have interpreted Rome's -----
----- between the European and Chinese civilisations.**

- 1. decision as a historic event that revives ties**
- 2. decision as a historic event that revive ties**
- 3. decision as an historic event that reviving ties**
- 4. decision as a historic event that in revives ties**
- 5. None of the above**

But how ironic it is that we should face perennial shortage of drugs when India is one of the world's largest suppliers.....

1. without generic drugs to the develop world.
2. of generic drugs to the developing world.
3. of generic drugs to the developing word.
4. of generic drugs too the developing world.
5. None of the Above

Now-a-days we are amused by professionals. Why listen to your friends singing when you can hear the great singers of the world on the gramophone or the radio? Why read even a detective story if you can see one at the cinema, and why play football with players who are not very good when you can go, by train or car, to see some of the best players in your country playing an important match or if you have a television set, -----.

1. just sit comfortably at home and watch the same without the trouble of going outside
2. just study at home and don't go for regular tuition classes.
3. just eat popcorn and relax.
4. just sit comfortably at home and meditate in peace.
5. None of these

Many doctors flatly refused to believe Joseph when he announced that he had found a preventive against smallpox. They declared vaccination to be a dangerous practice. -----The Latin word for cow is 'vacca' and it is the root from which the word vaccination was formed. Some of the 'vacca' used by Joseph were not pure and some harms were done but when supplies of pure vaccine were available, the practice of vaccinating spread all over England and from England to other countries. We hardly hear of outbreaks of smallpox now.

1. But the dread of the malaria was so much that vaccination was not so good
2. But the horror of measles was instilled in everyone's heart and they ate cow.
3. But the dread of smallpox was in everybody's heart and people flocked to Joseph to be vaccinated.
4. But Joseph was not wealthy and a trustworthy person and were also associated in various unorthodox practices.
5. None of these

Thanks to unabated industrialization and the rampant use of fossil fuels, humanity has driven the concentration of carbon dioxide in the atmosphere to over 400 parts per million. In addition, our use of synthetic fertilizers has artificially This coupled with deforestation has had such a serious impact that the natural biodiversity of the planet has shrunk and species are getting extinct 10 times faster than scientists consider acceptable.

1. tabulate their year-long data and sit down to prepare reports.
2. result in a additional 10cm of global sea level rise, affecting an additional 10 million people in 2100.
3. doubled the volumes of nitrogen and phosphorus in the soil at the surface of the Earth, resulting in toxic run-offs.
4. leading to unprecedented flooding, as we have seen this year in Kerala and Meghalaya.
5. None of these

The continuing debate on Delhi's air quality underlines that we are dealing with the symptoms and not the causes of the problem. Beijing's success in controlling air pollution was not because of regulating car use through the 'odd-even' measure as its efficient public transport systems covers 70% of trips. The population shift into the middle class in cities raises three policy questions. First, since much of air pollution is caused by activities that lead to climate change, there should be a comprehensive plan for cities. Second, the West, with one-fifth of the population, uses four-fifths of the natural resources. We should identify and modify, not adopt their wasteful trends. Third, the courts with their reliance on regulation and bans will not change behaviour.

1. **Current solutions to climate change also stress social transformation.**
2. **Wasteful ways of life must be questioned.**
3. **Urban design of infrastructure is the critical factor in the intensity of urban energy use and pollution.**
4. **The optimum solution is to lower energy demand in all dimensions while maintaining the level of energy services.**
5. **None of the Above**

The union government has stepped in to reduce homework for school students and reduce the weight of their school bags. Though the ministry of human resources development has not given a specific direction on the weight of the school bag on its own, it has asked the states to follow the Telangana model, and has asked to formulate rules in their own states.

1. which has no capability to address the problem of heavy weight of their school bags
2. to help the ministry gain advantage over it
3. which has specific weight demarcations for student at different level
4. favourably towards the critical conditions of government and primary schools infrastructure.
5. None of the Above

Are there any new ideas left in this country or old ideas again and again without any shame? One billion people are there in this country. But not one fellow has any new ideas. Same old song with new dance You go say hello doctor I have stomach ache, he will say take two X-ray morning and evening after food and then come back next week. You go to same doctor and say, doctor blood is there in urine he will say please take two X-ray morning and evening after food and come back in one week.

1. But receptionist will say sorry, doctor has gone to the U.S.
2. Other countries are zooming into the future.
3. Same old film with new hero. It is like going to doctor.
4. Whole country is like this. No originality.
5. None of the Above.
