## IMPROVEMENT OF SENTENCE

1. They traced the source of water hundreds of miles to the south, in which reduced sea ice has left the surface ocean more exposure to summer solar warming.  
Answer-
- (A) They traced the source to water  
(B) where reduced sea ice  
(C) more exposed to summer solar warming

## SPOT THE ERROR

2. NASA has set to launch the most advanced laser instrument of its kind in to the space next month, to measure the changes in the height of Earth's polar ice in unprecedented detail.  
Answer- NASA is set

## IMPROVEMENT OF SENTENCE

3. The Ice, Cloud and land Elevation Satellite-2 (ICESat-2) will be measure the average annual elevation change of land ice to cover Greenland and Antarctica to with the width of a pencil, capturing 60,000 measurements every second.  
Answer-
- (A) will measure the average annual  
(B) covering Greenland and Antarctica  
(C) within the width of a pencil

## SPOT THE ERROR

4. Warmer water that originated hundreds of miles away has penetrated deep in the interior of the Arctic, researchers found.  
Answer- penetrated deep into

## IMPROVEMENT OF SENTENCE

5. Health, fitness and diet go together as black and white, so it's relatively easier to link the three when you watch the amazing benefits they have, when put in place correctly.  
Answer-
- (A) like black and white  
(B) it's relatively easy to link the three  
(C) see the amazing benefits

## SPOT THE ERROR

6. Until we fully harness the power of diaphragmatic breathing, we will remain expose to inefficiency of movement and ineffective rehabilitation from pain and injuries.  
Answer- remain exposed

## IMPROVEMENT OF SENTENCE

7. The diaphragm is a dome-shaped muscle, who separates a chest and abdominal cavities, and plays a dual roles.  
Answer-
- (A) dome-shaped muscle, which  
(B) the chest and abdominal  
(C) and plays a dual role

## SPOT THE ERROR

8. New observational technologies of ICESat-2 — a top recommendation of the scientific community in NASA's first Earth science decadal survey will advance our knowledge of how the ice sheets of Greenland and Antarctica contribute to sea level rise.  
Answer- The new observational technologies

## IMPROVEMENT OF SENTENCE

9. ATLAS required for us to develop new technologies to get the measurement need by scientists to advanced the research.  
Answer-
- (A) us to develop new technologies  
(B) get the measurement needed  
(C) advance the research

## SPOT THE ERROR

10. While Kerala may be still reeling after its mass-scale floods which shook the entire state and left a high-death toll and thousands displaced, another state is also going through the same tragedy.  
Answer- No error
