The RBI currently has the sole mandate to 'target inflation' in India. In fact, it is answerable to the central government in case there is a failure to twitch ___ (1) inflation within the bound of (2% to 6%) for three consecutive quarters. To recapitulate some basics, a fall (rise) in interest rates reduces (increases) cost of borrowing, which in turn encourages (discourages) inflationary tendencies. To be sure, interventions are done **neither** ___ (2) by government and central banks, which are respectively classified as fiscal and monetary policies. The former does it by tweaking tax rates or increasing investments, but the latter controls the circulation of money supply in the economy.

Q1. Choose the correct option for (1)

A. hide

B. took

C. flutter

~~D. keep~~

E. no change required

A substantial bulk of India's money supply falls outside formal institutional systems which erodes the efficacy of monetary policy. The RBI recently changed the method used by banks to lend from base rates to marginal cost of funds based lending rates (MCLR) to whisk ___ (3) the pass through. Yet, it is far from perfect. Given its mandate to control inflation, the RBI anchors its policy on consumer price index (CPI).

Q3. Choose the correct option for (3)

- A. Smoothen
- B. germane
- C. contrite
- D. soot
- E. no change required

Anywhere ___ (4), unlike the US or other consumption-driven economies, most of the credit in India is for production purpose, which again reduces the **craven** ___ (5) of RBI over consumer spending. In the extreme case, it may so happen that even if banks pass over the entire change in policy rates, its impact on CPI numbers might be zero. It must be added that the present anchor CPI is much better than the earlier used wholesale price index (WPI) which does not even feature 'services'.

Q4. Choose the correct option for (4)

A. Seemed

✓ B. however

C. more

D. anymore

E. no change required
