Questions with Passages

Tests may ask students to interpret information in a particular passage. No matter what the question, the key is to know what the passage actually says.

How To Do It

Here are some tips for handling questions from passages.

<https://t.me/srayaenglish>

❑ First:

- **Concentrate:** Put aside your worries and distractions. Get ready to get down to business!
- **Don't rely too much on prior knowledge:** Although you may know about the subject, the information that is presented will be the source from which your answer should come.

❑ Second

- **Read the question first:** Why read the question before the passage? Because it saves time to know what you are reading for!
- **Make sure you understand the question:** What kind of information will you need to gather when you read? Will you be looking for facts? Or will you be using the passage to come up with your own answer?

- **Read the passage:** Read the passage as quickly as you can. Look for the answer as you read. When you find it, take notice of it, but -- and this is important -- don't stop reading yet! Read to the end. That way you can be sure that your answer is the best, most complete answer possible. If you are reading the passage in order to provide a written response, read more carefully. Make sure you understand everything.
- **Providing the answer:** Feel free to look back at the passage to double-check your answer.
